TAG - Tracking

Panda-Meeting, GSI, 11-Dec-2006

TAG Tracking

Fabian Hügging, IKP 1,
Forschungszentrum Jülich

Status

- Definition of benchmark channels Done
- Discussions on requirements and simulation questions for each sub-detector
  - MVD Done
  - MDC Done
  - STT ?
  - TPC Jan/Feb 2007

- Design choices, definition and procedure.
  - MDC design1, MDC design2 or Straws Done
  - TPC – STT still to be done
- Towards a TDR started

Fabian Hügging, IKP 1,

Next steps

- Finish round of requirements/simulation questions

→ Feb 2007

- Discuss business of design choices, esp. the TPC - STT question to come up with a feasible concept/timeline !

→ March/April 2007

- Define and fix timeframe for TDR preparation(s)

→ March 2007

Preparation of a concluding document of our work:

→ it this necessary or will collection of collection of the stuff at the Wiki page do the job?

→ if we decide to prepare such a document additional 2 month are needed, i.e. June 2007.
